

## **Samsung Electronics Sets the Bar for Innovation, Winning Multiple Mobile Technology Awards at Mobile World Congress 2016**

**BARCELONA, Spain – February 24, 2016** – Samsung Electronics announced awards for Galaxy S6 edge and Gear S2 from GSMA at the annual Global Mobile Awards at 2016 Mobile World Congress. The leader in mobile innovation, Samsung continues to push the boundaries of hardware, software and services, creating devices that help consumers get more out of life. The company is redefining what is possible, beyond the limits of today's technology, by introducing a constellation of seamless mobile experiences.

In testament to Samsung's consistent pursuit of excellence in design and function, Gear S2 was named "Best Connected Consumer Electronic Device" in the Best Mobile Handsets & Devices category. This award recognized Gear S2 for its versatile circular design and intuitive functionality for a more convenient and enjoyable experience.

Samsung Galaxy S6 edge was also awarded "Best Smartphone 2015", in acknowledgement of its functional design and usability for seamless everyday use.

"We are honored to be recognized for our industry-leading technology," said DJ Koh, President of Mobile Communications at Samsung Electronics. "At Samsung we remain committed to providing mobile devices that are inspired by consumers and always underpinned by a focus on progress and innovation."
