

# Jio and Samsung Joint Press Conference

Feb. 28. 2017

8:45AM, Doors open at 8:20AM (CET)

Conference Room 2 of the Media Village (CC4 on the map)

It is a privilege to invite representatives of the media to the joint press conference between Jio and Samsung for industry insights and discussion, which will be held during the MWC period on February 28, 2017, at Conference Room 2 of the Media Village.

The objective of the press conference is to foster engagement and participation among industry leaders, governments, and communities by discussing Jio's successful 4G LTE business and how it has transformed the everyday lives of the 1.3 billion Indians. In alignment with this, we will also share the contributions made by Samsung, as Jio's solutions partner. We hope for this to benefit participants in understanding how we have and will make impacts at local and international levels for the growth of the industry.

Host : President Jyotindra Thacker, Jio,

President Head of Networks Business Youngky Kim, Samsung Electronics

You will need a GSMA press badge for access which you can register for on the GSMA press page. Should you have any queries, please contact us at [ianetworks@samsung.com](mailto:ianetworks@samsung.com)
